## FRONTEND DEVELOPER

Mobile: +91 9847328745

LinkedIn: <https://www.linkedin.com/in/basil-t>  
Email: basilribumon@gmail.com

Address: Thottappali (H), Muttippalam, Manjeri (PO), Malappuram, Kerala - 676121

## CAREER OBJECTIVE

To obtain a Frontend Developer position where I can apply my knowledge of React.js, JavaScript, HTML, CSS, Redux Toolkit, and REST APIs to build responsive and user-friendly web applications while continuously enhancing my technical skills and contributing to organizational success.

## SKILLS

- Technical Skills:**

Proficient in HTML5, CSS3, JavaScript (ES6+), Bootstrap, React.js, Redux Toolkit, TanStack Query, REST APIs, Axios, JSON Server, Git, GitHub, Visual Studio Code, MySQL, and basic knowledge of Django.
- Soft Skills:**

Problem-Solving, Team Collaboration, Communication Skills, Time Management, Adaptability, Critical Thinking, Attention to Detail.

## PROFESSIONAL EXPERIENCE

Bridgeon Solutions

Jan 2026 – Jun 2026

Frontend Developer Intern — Manjeri

**Project:** E-Commerce Website (CaseHub)

**Technologies:** React.js, Redux Toolkit, TanStack Query, JavaScript, HTML5, CSS3, JSON Server, Axios, Git

- Developed a fully responsive e-commerce web application using React.js.
- Implemented secure user authentication featuring robust login and registration flows.
- Built dynamic product listing, product details, interactive search, filtering, sorting, and seamless pagination features.
- Integrated Redux Toolkit for efficient global state management covering cart, wishlist, authentication, and order flows.
- Utilized TanStack Query and Axios for asynchronous API data fetching, loading state synchronization, and client-side caching.
- Implemented full shopping cart functionality with live quantity updates and an optimized checkout sequence.
- Developed feature-rich wishlist tracking and post-purchase order management modules.
- Configured JSON Server as a mock REST API to perform thorough CRUD operations throughout the development cycle.
- Adhered strictly to component-based software architecture to deliver reusable and highly maintainable React components.

Regional Technologies

Jan 2025

Python Developer Intern — Calicut

**Project:** Disaster Management System

**Technologies:** Python, Core Systems Design

- Developed a backend system using Python to optimize automated emergency responses and streamline multi-resource coordination.
- Implemented logical data handling and real-time alert mechanisms to significantly bolster disaster risk mitigation.
- Designed core system modules for structured incident reporting, affected area mapping, and automated relief distribution tracking.
- Focused heavily on automation and data-driven decision logic to dramatically enhance disaster preparedness metrics.
- Gained deep hands-on experience solving engineering bottlenecks, writing modular Python logic, and setting up collaborative project workflows.

## EDUCATION

### University of Calicut

2023 – 2025

*Bachelor of Computer Applications (BCA)*

Graduated with a focus on computer science, application development, and software design principles.

### GHSS Mankada Pallipuram

2020 – 2022

*Higher Secondary Education — Computer Applications*

## CERTIFICATIONS & ACHIEVEMENTS

- **Bachelor of Computer Applications (BCA) Degree** — University of Calicut
- **Professional Internship Certification** — Regional Technologies, Calicut

## PERSONAL PROFILE

**Date of Birth** : 16-06-2003  
**Gender** : Male  
**Marital Status** : Single  
**Nationality** : Indian  
**Languages Known** : Malayalam, English

I hereby declare that the information furnished above is true and accurate to the best of my knowledge and belief.

**Place:** Manjeri
